

Sihle o na le mengwaga ye šupa.

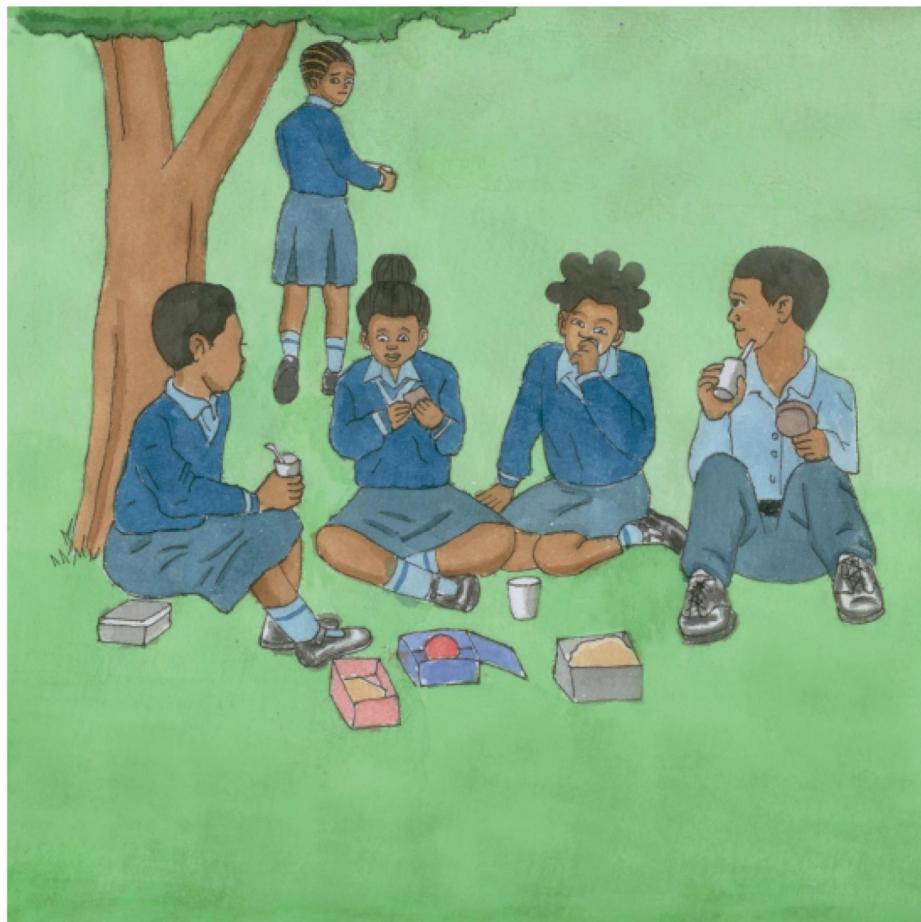

O tsena sekolong sa poraemari.

Mmagwe o mo phuthelela dijo tša letena letšatši le lengwe  
le le lengwe.

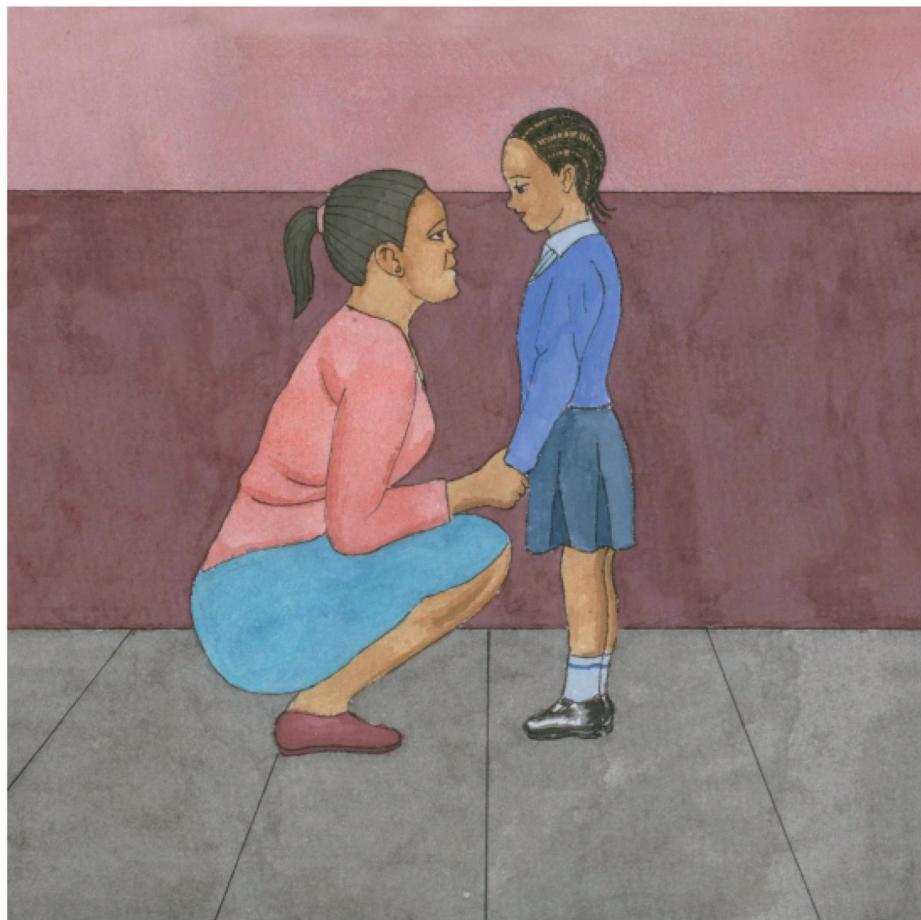

Ka letšatši le lengwe, bana ba be ba eja mmogo ba dutše ka fase ga mohlare.

Sihle a nagana, "Lehono, ke ilo dula le bona. Ba bonala ba thabile, ebile ba boledišana gabotse."

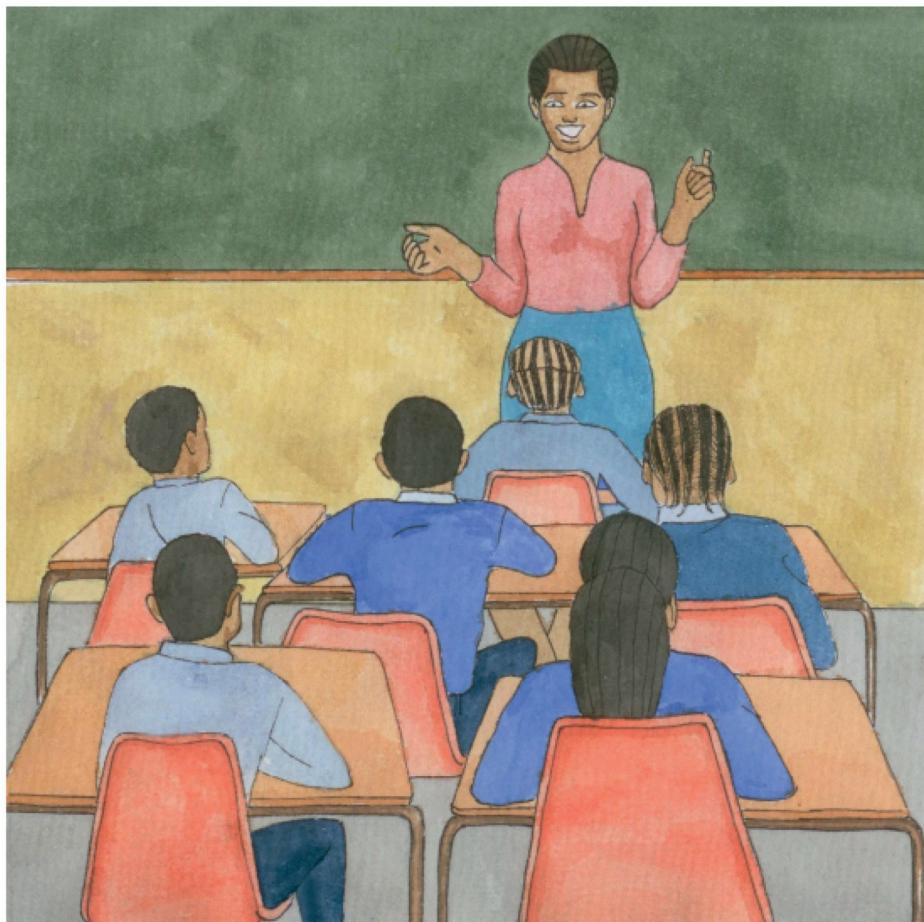

Ge Sihle a fihla go bona, bana ba be ba sa mmolediše. A tloga fao a nyamile.

Morutiši Mthetho a lemoga seo se diregago.

Sihle a ya ka morago ga phapoši. Morutiši Mthetho a mo šala morago.

“Bana ba bangwe ga ba nyake go ba kgauswi le nna ka lebaka la bolwetši bja ka,” Sihle a botša Morutiši Mthetho.

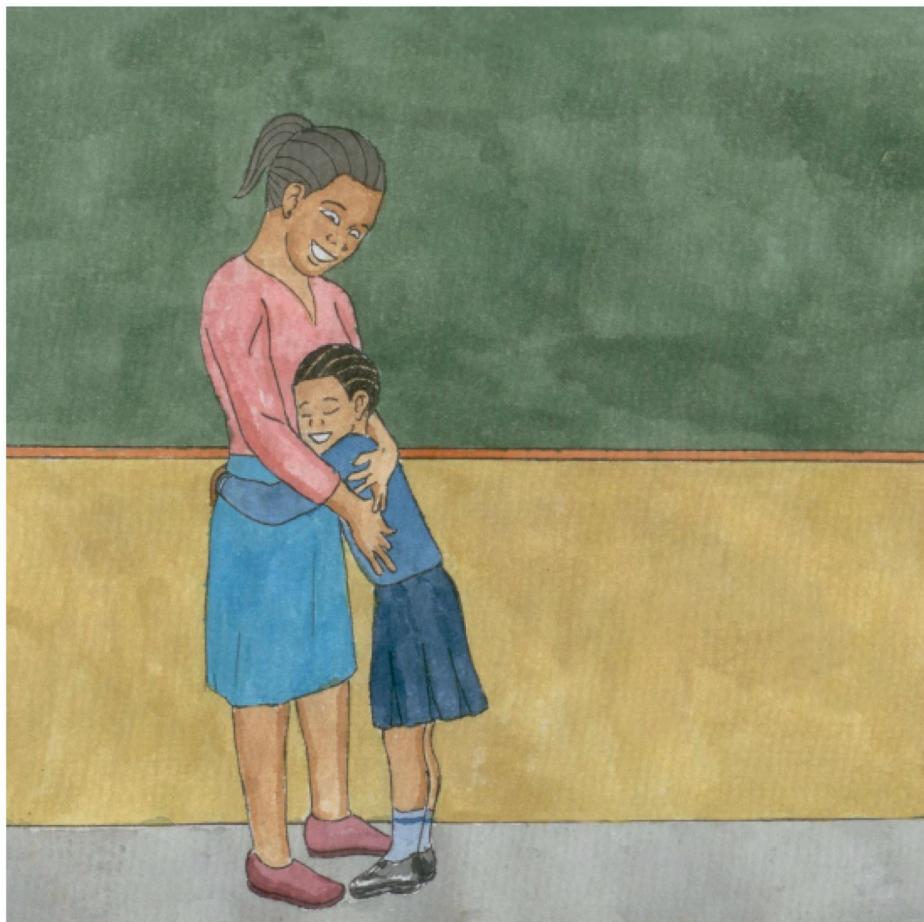

Ka morago, Morutiši a bolela le bana.

A hlaloša, "HIV ke kokwanahloko yeo e phatlalatšwago ka go kopanya madi goba diela tše di lego ka gare ga mebele ya rena."

Morutiši Mthetho a tšwela pele, "HIV ga e phatlalatšwe ke go raloka mmogo, go ja mmogo goba go gokarelana."

"Le ka raloka la ba la ja mmogo. Le ka gokarelana."

Bana ba be ba thabišitšwe go ithuta dintlha ka HIV.

Ba gokarela Sihle, "Re maswabi ka ge re ile ra se bontšhe  
botho go wena."

Go tloga lona letšatši leo, Sihle o be a thabela go ba sekolong.

O ile a thoma go raloka ka go lokologa le bana ba bangwe.
