INcwadi Yomfundi Yomsebenzi
Learner Activity Book

IsiXhosa | English

Le ncwadi sisiqhamo sentsebenziswano phakathi kweqela elibizwa ngokuba yi*Bala Wande-Magic Classroom Collective team* kunge neqela lokuqinisekisa elenziwe ngabantu-ngabantu abakwiyunesithi eziliqela ezahlukileyo, imibutho engalawulwa ngurhulumente (NGOs) esebenza ngemathematika kwakunye neSebe leMfundu esiSiseko. Ezi zixhobo zokufunda zithathela kwiincwadi zemisebenzi eziqulunqwe liSebe leMfundu esiSiseko nakuphindaphindo Iwezicwangciso zezfundo (GPLMS, Jika iMfundu, NECT neTMU). libhokisi zezixhobo zokusebenza ngobuchule ze*Bala Wande* zayilwa ngokucebisana nabakwaJade Education. Ezi bhokisi zinezixhobo zodidi oluphezulu eziyinxalenye ebalulekileyo yenqubo yokufundisa nokufunda.

The development of this workbook was carried out by the collaborative *Bala Wande-Magic Classroom Collective team* in consultation with a reference team made up of individuals from several universities, mathematics NGOs and the Department of Basic Education. These materials draw on the DBE workbooks and existing iterations of lesson plans (GPLMS, Jika iMfundu, NECT and TMU). The *Bala Wande* manipulative boxes were designed in consultation with Jade Education. The boxes provide high quality materials which are an integral part of the teaching and learning programme.

Ukusebenzisa incwadi yemisebenzi yabafundi yeBala Wande

Le ncwadi yemisebenzi yabafundi inemisebenzi elungiselelwe iintsuku ezingama-40 zokufundisa kwikota yesi-4. Kukho imisebenzi yophuhliso lwengqiqo, imisebenzi yomfundu ngamnye kwakunge nemidlalo apho abafundi baya kudlala ngababini okanye ngokwamaqela. Impendulo zale misebenzi zingabhalwa kwakule ncwadi.

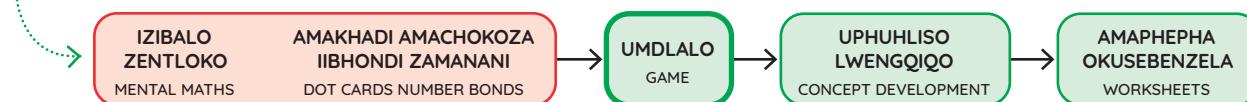

Imisebenzi ekule ncwadi ibhalwe ngeelwimi ezimbini. Siyathemba ukuba ukusebenzisa iilwimi ezimbini kuya kubanceda abafundi bafunde baze bawaqhele amagama emathematika ngolwimi lwabo lwasekhaya nangesiNgesi. Ukwenza njalo kuya kubaxhobisa bakulungele ukufunda imathematika ubomi babo bonke.

Ukuba abafundi bathi gqolo ukwenza imisebenzi yabo yonke imihla ngazo zonke iikota, baya kuyigqiba yonke ikharityhulam yemathematika yonyaka. Siyathemba ukuba le misebenzi ilapha iya kuba yindlela enoyolo yokubanceda ekufumaneni ulwazi lwemathematika olusisiseko.

Ukuqala kosuku ngalunye olutsha kuboniswe ngebhanile eluhlaza.

Ngezantsi kwebhanile kukho iflowutshathi eshwankathela ukulandeletana kwemisebenzi yolo suku.

Izibalo zentloko ziya kuba ngumsebenzi wokuqala yonke imihla. Lo msebenzi uya kukhokelwa ngutitshala.

Onke amanye amaphepha asencwadini alungiselelwe abafundi ukuba basebenzele kuwo ngokunokwabo okanye ngokwamaqela kodwa bekhokelwa kwaye bencediswa ngutitshala. La maphepha ingangamaphepha okusebenzela okanye imidlalo eyenzelwe ukubethelela isigama esifundiswe ngolo suku. Imidlalo iboniswe ngokusebenzisa iikhathuni okanye oopopayi ukubonisa indlela omawudlalwe ngayo umdlalo.

- 2 Bonisa inani ngokusebenzisa amachokoza, izinti zokubala, iisimboli kanye namagama.

Show the number using dots, tallies, symbols and words.

			6
thandathu six			

Yonke imiyalelo neenkukacha zinikwe ngesiXhosa nangenguqulelo yesiNgesi ngezantsi.

Amaphepha emisebenzi yomfundu anemizekelo esele yensiwe (ibonisa ngombala ongwevu nangepenisile ebomvu).

Usuku lwesti-5 lweveki nganye lulungiselelwe uqukaniso novavanyo.

Using the Bala Wande Learner Activity Book

This Learner Activity Book has activities planned for 40 days of teaching in Term 4. There are concept development activities, individual learner activities and games for learners to play in pairs and groups. Answers to the activities can be written in this book.

The material is presented using a bilingual format. We hope that presenting the activities in two languages will help learners to become familiar with maths words in both their home language and in English. This will equip them for lifelong learning of maths.

If learners work systematically through these workbook-style activities every day and every term, they will cover the whole maths curriculum for the year. We hope that these activities will be a fun way to help them acquire foundational maths knowledge.

The start of each new day is shown with a green banner.

Underneath the banner is a flow diagram that summarises the sequence of activities for the day.

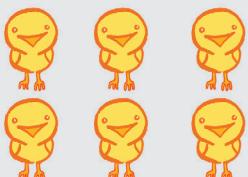

Mental Maths is the first activity every day. The teacher will lead this activity.

All the other pages in the book are for learners to work on independently or in groups with guidance and support from the teacher. They may be worksheets or games, for consolidation of the concepts covered that day. Games are presented using cartoons of learners to show how the game should be played.

- 2 Bonisa inani ngokusebenzisa amachokoza, izinti zokubala, iisimboli kanye namagama.

Show the number using dots, tallies, symbols and words.

	 	
<p>thandathu six</p>		

All instructions and information are given in isiXhosa with an English translation below.

Day 5 of each week is planned for consolidation and assessment.

 \end{array}$$

Ndina- ____ zizonke.
I have ____ altogether.

$$\begin{array}{r}
 & 4 & 3 \\
 + & 6 & 1 \\
 \hline
 & 1 & 0
 \end{array}$$

2 Dibanisa! Sebenzisa iibloko.

Add! Use your blocks.

Dibanisa imivo uze
udibanise amashumi.

Add the ones and add the tens.

$24 + 33 = \underline{57}$	$56 + 13 = \underline{\quad}$	$11 + 47 = \underline{\quad}$
$36 + 51 = \underline{\quad}$	$71 + 22 = \underline{\quad}$	$84 + 15 = \underline{\quad}$
$14 + 75 = \underline{\quad}$	$56 + 32 = \underline{\quad}$	$23 + 44 = \underline{\quad}$
$52 + 12 = \underline{\quad}$	$27 + 72 = \underline{\quad}$	$43 + 33 = \underline{\quad}$

3 Thabatha.

Subtract.

Thabatha imivo uze
uthabathe amashumi.
Subtract the ones and
subtract the tens.

Kushiyeka i-16.
There is 16 left over.

2	7
- 1	1
	6

Kushiyeka ama-22.
There is 22 left over.

3	9
- 1	7
	2

Kushiyeka ama-____.
There is ____ left over.

4	8
- 2	1

Kushiyeka ama-____.
There is ____ left over.

4	7
- 1	4

Kushiyeka ama-____.
There is ____ left over.

5	6
- 3	5

Kushiyeka ama-____.
There is ____ left over.

6	8
- 4	7

4 Thabatha! Sebenzisa iibloko.

Subtract! Use your blocks.

$$97 - 35 = \underline{62}$$

$$46 - 15 = \underline{\quad}$$

$$84 - 63 = \underline{\quad}$$
