Dikhomphutha di šoma ka tshedimošo ya go bitšwa data.

Data e ka ba ka mokgwa wa ditlhaka, dinomoro, diswantšho le modumo.

Ge o tsenya tshedimošo khomphutheng, o  
tsenya data.

O tsenya data khomphutheng ka go tlanya mo  
khiipotong.

Re šomiša didirišwa tše di latelago go tsenya  
data khomphutheng:

khiipoto (1)

maose (2)

Re šomiša didirišwa tše di latelago go tsenya  
data ya modumo le diswantšho:

maekrofouno (3)

setšeadiwantšho (4)

Re kgora gape go hwetša data go tšwa khomphutheng.

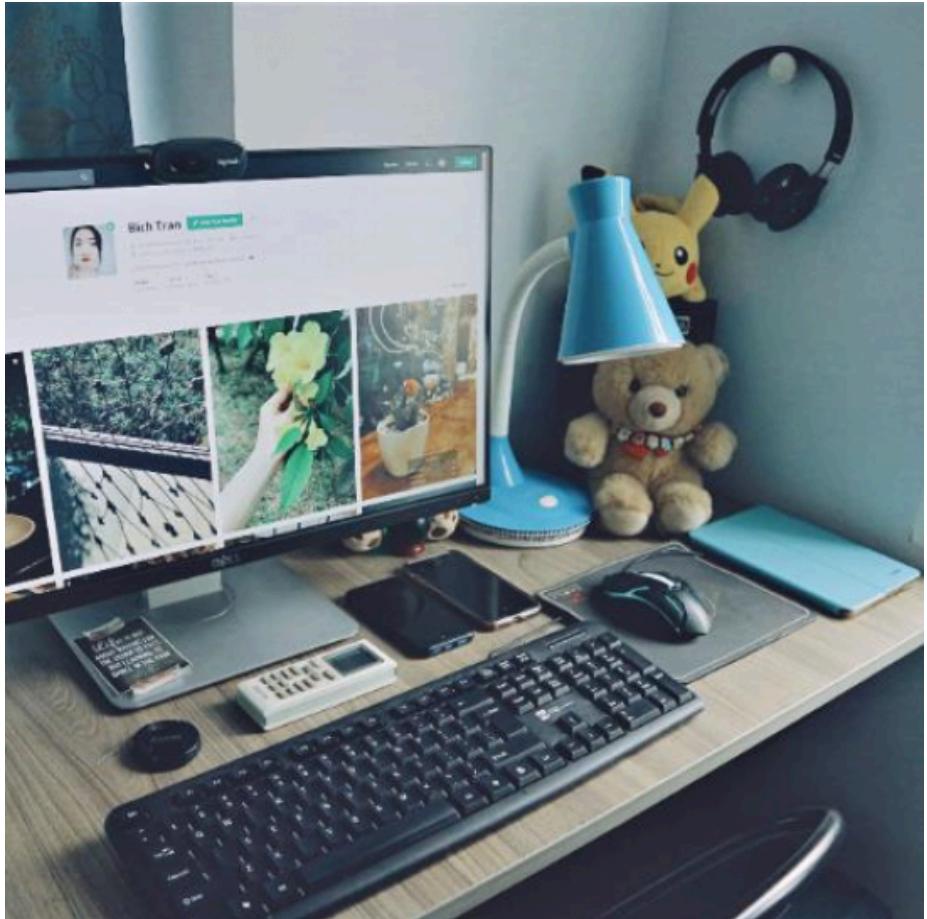

Data ye re e hwetšago go tšwa khomphutheng e bitšwa tšweletšo.

Segodišamodumo (5) le sekirini (6) di re fa tšweletšo.

Sekirini (6) se re fa tšweletšo ka mokgwa wa diswantšho, ditlhaka le dinomoro.

Digodišamodumo le ditsebjana (7) di tšweletša modumo.

Hardware ke ditlabakelo tša khomphutha tše o kgonago go di swara.

Ditlabakelo tša gona ke sekirini, khipoto, dipikara, maose, maekrofouno le diheadphone.

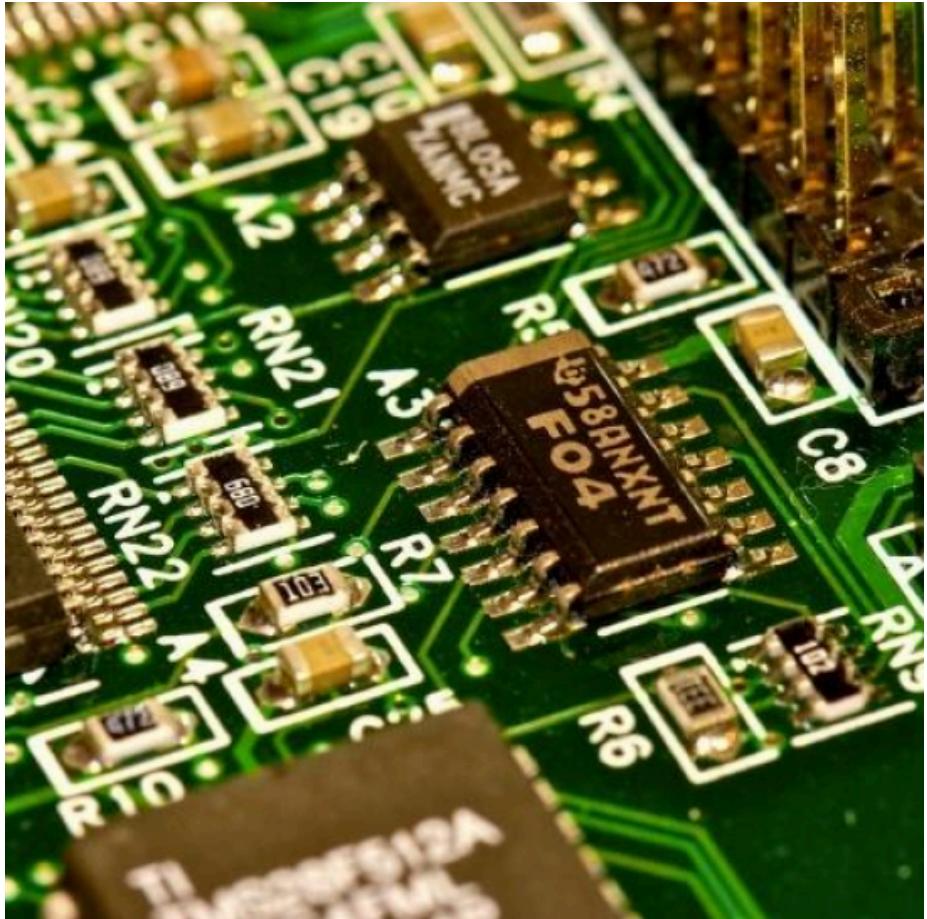

Khomphutha e hloka *software* gore re kgone go e šomiša.

*Software e fa khomphutha ditaelo tša gore e šome bjang ka data ya go fapafapano.*

Diprograme le diaplikheišene ke mehuta ya *software*.

Go fa mohlala, o hloka aplikheišene ya khamera mogalathekeng gore o tšeet diswantšho le dibidio.

Ge o ka lebelela ka gare ga khomphutha, o tla bona dikarolwana tše dintši tše nnyane tša go bitšwa ditšhipisi tša khomphutha.

Ditšhipisi tša khomphutha di thuša go breakanya tshedimošo gore khomphutha e šome.

## —Dipotšišo

1. Na tshedimošo ya ka gare ga khomphutha o e bitša eng?
2. Khiipoto le maose ke mehlala ya didirišwa tša .....
3. Na data ye re e hwetšago khomphutheng e bitšwa eng?
4. Efa mehlala ye mebedi ya ditlabakelo tša khomphutha.
5. Na ‘software’ ke eng?
6. Hlaloša mehuta ye meraro ya datha yeo sekolo se ka e nokelago khomphutheng.
7. Ke eng se o swanetšego go se dira go kgonthišiša gore komphutha ya gago e a go šomela?
8. Ke eng se se kaone ka ga go tlanya khomphutheng ge go bapetšwa le go ngwala letlakaleng ka pene?

---

Puku ye ke ya bobedi ya tlhatlamano ya dipuku tše nne tša go tsebiša direrwa tša thekenolotši ya khomphutha.

Puku ye ya dikanegelo e hlametšwe ba Zenex Ulwazi Lwethu bjalo ke protšeke ya go bala ya ngwaga wa 2021.

Ulwazi Lwethu is a Zenex Foundation funded and initiated project to develop a series of graded and leisure African language readers and teacher support materials. This project is targeted at teaching and supporting learners in the Foundation Phase to improve their home language reading and understanding. The readers have been originated in nine African languages in collaboration with Molteno Institute for Language and Literacies, Nelson Mandela Institute for Education and Rural Development, Room to Read South Africa, and Saide. All resources are developed as Open Education Resources (OER).
