PREFACE

Dans le cadre de l'amélioration de la qualité des enseignements/apprentissages au cycle élémentaire, le Ministère de l'Education nationale du Sénégal a mis en place le programme « Lecture Pour Tous », financé par le Gouvernement américain à travers l'Agence Américaine pour le Développement International (USAID).

L'atteinte des objectifs de qualité annoncés dans le Programme d'Amélioration de la Qualité, de l'Equité et de la Transparence (PAQUET), dépend, en partie, du développement des compétences de lecture sans lesquelles les apprentissages se réalisent difficilement dans les autres disciplines. Or les performances en lecture sont fortement tributaires de l'accès des apprenants à des intrants de qualité. C'est pourquoi, le matériel didactique conçu et réalisé par Lecture Pour Tous, pour servir de support à l'ambition du ministère d'améliorer les acquis scolaires dans cette discipline fondamentale, revêt un intérêt capital du fait de l'utilisation des langues nationales comme médium et objet d'apprentissage de la lecture initiale.

Ce matériel didactique est élaboré sur la base d'expériences éprouvées, menées de par le monde et adaptées au contexte sénégalais, y compris le curriculum de l'éducation de base. Les évidences en apprentissage de la lecture initiale démontrent que le recours aux langues que parlent et comprennent les enfants, l'adoption du principe de décodabilité, l'application d'une approche d'apprentissage systématique, explicite et structurée permettent aux enfants de lire correctement.

Au vu des nombreuses expertises sollicitées pour sa conception, il est à espérer que ces ouvrages constitueront des supports de qualité qui permettront d'apporter une réponse effective à la volonté du Ministère de l'Education nationale d'améliorer significativement les performances en lecture.

C'est le lieu de remercier l'USAID pour son précieux concours et d'inviter tous ceux qui auront en main ces outils d'en faire un bon usage.

Le Ministre de l'Education nationale

AVANT-PROPOS

Pour aider les élèves sénégalais à réussir l'apprentissage de la lecture dès les premières années de leur scolarité, le programme « Lecture Pour Tous » a conçu cet outil de classe en langue nationale dans une approche syllabique. Il est destiné aux élèves de Cours d'Initiation (CI).

Cet outil de classe permet à l'enseignant (e) de travailler régulièrement les capacités de lecture des élèves. Il est fondé sur le respect du principe de décodage systématique en lecture. C'est-à-dire que l'élève apprend progressivement sur la base de lettres, de sons et de mots déjà étudiés.

Dans la progression, l'élève apprend à reconnaître les sons à l'oral et à l'écrit, à combiner des lettres pour former des syllabes, à associer des syllabes pour former des mots, à lire des mots familiers et des mots inventés, des phrases et des textes de façon fluide et à s'essayer à trouver le sens des mots et des phrases qui sont lus.

La démarche préconisée recommande fortement de :

- Utiliser régulièrement l'outil de classe pour dérouler toutes les activités de lecture en classe ;
- Amener l'élève à pointer du doigt l'objet à lire pendant au moins six secondes en lui accordant toute son attention ;
- Amener l'élève à lire à haute voix tous les jours les contenus présentés.

Indispensable à la classe, cet outil est un intrant de qualité pour aider les élèves à développer, avec un minimum d'assistance, leurs compétences en lecture.
